WEBSON FASTENERS

AS9120B · ISO 9001:2015
CERTIFIED DISTRIBUTOR

// VALUE-ADDED SERVICES · LONG ISLAND, NY

Custom fastener supply programs built around your operation.

Since 1986, Webson has supplied manufacturers across Long Island from Deer Park. Our inventory, sourcing, manufacturing coordination and quality services bring recurring requirements together through one certified distributor.

01 · MANAGED REPLENISHMENT

Vendor-Managed Inventory & Bin Stocking

Frequently used hardware is organized and replenished at your stocking or point-of-use locations on an agreed schedule. Programs are designed to keep frequently used parts available while reducing purchasing activity, shortages and excess stock.

- → **On-site bin stocking** at the line, cell or stockroom
- → **Set levels and review cadence** agreed for each part
- → **Just-in-time delivery** backed by local inventory
- → **Commercial, electronic, Mil-Spec and custom** hardware managed together under a single program

02 · PACKAGED TO THE BUILD

Custom Kitting & Packaging

Fasteners and components grouped by assembly, job or work order. Send a full bill of material; we source, kit and release on your production schedule.

03 · PLANNED DELIVERIES

Blanket Orders & Scheduled Releases

Repeat purchases coordinated through blanket orders, planned release dates and long-term pricing, delivered to your stores on the schedule you set.

04 · HARD-TO-FIND & MADE-TO-PRINT

Sourcing & Custom Manufacturing

Research on legacy, obsolete and non-stock parts, plus made-to-print components with plating, heat treatment and other secondary operations coordinated with the order.

05 · DOCUMENTED SUPPLY

Quality & Traceability

An AS9120B / ISO 9001 quality system with receiving inspection, lot control, certificates of conformance and aerospace traceability as your purchase order requires.

// GETTING STARTED

Every program starts with your requirement.

01
Send the part information
Part numbers, drawings, purchase lists, BOMs or usage history.

02
We review the program
Products, quantities, delivery needs and documentation.

03
You get a recommendation
A quotation or program built on your actual usage.
